Dedication

During our basic science courses and into our early clinical years, Dr. Skinner has urged us to be a rational and thinking physician. He has warned us of the ease of "cookbook medicine" and inspired each of us to understand the medicine we practice. Throughout our educational process he has reminded us not to lose our personal identity. His door has always been open to us. Dr. Skinner is dedicated to perfecting the education of physicians. It is in recognition of his efforts that we dedicate this yearbook to him.

JR and MP

"When in danger, when in doubt, run in circles, scream and shout."

NSS 1975

AWARDS

Walter M. Roufail, M.D.

Dr. Roufail is an intelligent, personable and understanding physician. His sense of humor and accentuation of the positive make him appreciated by both his patients and his students. Those who have been fortunate enough to work with him have benefited from his energetic and organized approach to the practice of medicine. The Class of 1977 is proud to give him this citation for teaching excellence.

N. Sheldon Skinner, M.D.

The Class of 1977 has had the benefit of Dr. Skinner's teaching excellence since our basic science years. He guided us in the acquisition of fundamental knowledge, then refreshed and reinforced us in our clinical years. He has always inspired us to be thinking physicians. His continued efforts to upgrade medical education at Bowman Gray make him an excellent choice for this teaching award.

Edward F. Haponik, M.D.

David C. Oliver, M.D.

Much of the basis of our clinical training is acquired through the close association with the house staff during our clinical years. Drs.

Haponik and Oliver stand out as both excellent physicians and teachers. The Class of 1977 is proud to present them this award for teaching.

DEDICATION

The dictionary defines it as "commitment, devotion."

Our agents define it for Mass Mutual.

Men and women committed to a life's work of responsible financial counseling.

Men and women whose understanding of "dedication" is reflected in the scope and quality of the services they perform for their clients. And in their involvement in the civic, cultural and humanitarian activities of their communities.

Dedication. For 125 years it's been a characteristic of Mass Mutual agents. Here are some you may know. They are located at Suite 428 — Stratford Oaks — in Winston-Salem. Telephone 725-8724.

**We measure
velocities
in space**

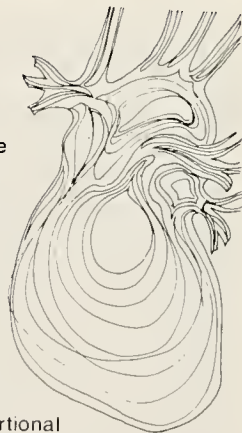

... inner space

Measurement of blood flow in inner space is achieved through the CME CATHETER PROBE ... 1000 series.*

This sub-miniature intravascular probe, designed for CME Flowmeters, measures continuous and simultaneous data on both pulsatile and mean flow velocities in CM/Sec. It detects forward and reverse velocities. This smooth, blunt tip probe, mounted at the end of a special catheter, is sensitive to flow over, rather than through the probe, producing an output signal linearly proportional to flow velocity.

The electromagnetic catheter probe is available in 7, 8 and 9 French ... sizes 8 and 9 French with or without a pressure lumen. The pressure lumen, an integral part of the catheter, enables simultaneous detection of blood velocity and blood pressure by a single catheter. This same lumen may be used for withdrawals of blood or injection of medication.

Acknowledgments

The staff of the 1977 *Gray Matter* would like to extend our thanks to the following people without whom this book would have been nearly impossible: to Wilma Mathews from the Department of Information for untold hours of plain hard work and moral support; to Jack Dent of the Department of Audio-Visual Resources for photographic printing; to Lis Stanger of the senior class for assistance in the senior section; to our families and friends for tolerating our hours from home and short tempers; and to our professors in this past rotation for (we hope) not noticing our absence. Thanks also to the following: C.D. Maynard for mediating between the masses and psychiatry; B.L. Truscott for not becoming dean of admissions until after we got in; D. Stail for helping more than hindering; W.J. Bo for his bible; C.E. McCreight for the Christmas party and descent of the testicles; W.A. Krueger for his blunt dissection technique; M. Bartley for hanging around forever; R. Gibson for liking San Francisco; P. Comer for being a natural speed freak; A. Brich and his office photography; R. Savage for taking attendance in OPD; R. Janeway for his single hour headache lecture; G. Mims for Dover's dog; J. Tolmie for relieving Doc Maynard; D. Weeks and his handyman belt; S. Pegram and his eye catching squash game; C. Strittmatter for getting excited about the Krebs Cycle; L. DeChatelet and his lectures with Dr. McCall; the Dept. of Behavioral Science for their portrayal of Peyton Place; A. Rhyne for his outside shooting at the "Y"; Q. Myrvik for showing us why people use Scope; "Heavy Duty" Drexler; D. Groves for HPing speed reading; J.E. Johnson for always having a question; J. Philp for Janet Sly and his concern for our education; C. McCall for rafting on the Nulichuk; J. Edmonds, a hopeless Deacon fan; C. Howell and his handshake; R. McLean for his PA "Deep Foot"; Gastroenterology for toxic megarounds; J. Toole for unsuspected humaness; W. McLean and his succinct assessment of a patient; C. McGraw and his life membership to TOG; F. Greiss for his affection for sheep and "If you don't ovulate there is no point in having women in the world"; R. Prichard and the friendly fluid; I. Holleman and his bullets; M. Scharyj and his "Southern German"; W. Pearson in his award winning role as devil's advocate; J. Rogers for alcoholism and hysterical women; J. Pixley for helping some of us; J. Simon and A.M. rounds; H.O. Goodman for never stopping; D. Kelsey and her jeep; A. Hinman for influencing a soon-to-be pediatrician; M. Lawless and his concern for the masses; R. Patterson, a sensitive man; R. Rieker for his new baby girl; R.L. Weaver for his cigars and septic work-ups; R. Hall for reading his handouts; to surgery for the "Big Five" of WFU; P. James for his brother Frank; the "Hud" for hard work and attention to detail; T. Pennell for his concern and sigmoidoscopies; W. Ward and his allergic females; M. Levitt for the T.B. monkey; J. Meschan and bone disease; M. Sprinkle and his Christmas punch; D. Shafer for his "fabulous body"; S. Fulk and her "fat and fascia"; W. Stratten for his gap and G. "Dean" Jones, need we say more. We intend no offense in the above and seriously extend our gratitude to all those who guided us through our first four years of medical education.

Photography

Photography was done by the staff. Marty Perlmutter was photography editor. Cover photography by Marty Perlmutter. Introduction photography by Marty Perlmutter and John Roach.

Colophon

Six hundred fifty copies of the 1977 *Gray Matter* were printed by Hunter Publishing Company, Winston-Salem, North Carolina. This edition was printed in Helvetica type for copy. Optima type was used for the headlines. The book was printed on Stipple finish paper in black ink.
